ABOUT GREEN TRAINING USA

Green Training USA is a world class training organization whose mission is to deliver the most effective, accessible and valued green training in America. We provide best-of-breed instruction for online, in-class, and hands-on field training for residential and commercial building performance.

Our instructors are skilled educators as well as experts in their field, bringing years of real world experience in business, energy consulting and field work to their training sessions for a superior learning experience. Our quality training translates into one of the industry's highest pass rates. And in the event that you don't pass your certification exam, you're backed by our 100% Success Guarantee – take the course again for free until a passing grade is achieved.

As a leading training organization, we provide a comprehensive lineup of training courses for respected national and international standards: BPI, RESNET, BOMI, LEED and many others. We look forward to adding you to our list of graduates!

Our Customers Include:

WHY CHOOSE GREEN TRAINING USA?

1. Our Unique Blend of Online and Onsite Course Delivery

Get the best of both worlds! The convenience of online learning combined with hands-on training in real-world settings.

2. **High Quality Instruction** – Our video professor never skips a topic, never stumbles over an explanation, never cancels class and never has a bad day.
3. **Self-Paced Learning** – Learn at your own speed; repeat any sessions you didn't understand the first time.
4. **Live Support** – An instructor is just a phone call away!
5. **Start NOW** – Begin the online sessions immediately; no need to wait for a class date.
6. **No Travel Required** – Spend time studying instead of driving back and forth to class.
7. **Hands-On Training Near You** – After completing the online sessions, attend an interactive, in-the-field workshop led by an experienced practitioner.
8. **High Pass Rate** – We combine real-world expertise with best practices to deliver material in a way that ensures most students pass their certification exams the very FIRST time!
9. **100% Success Guarantee** – Just in case you don't pass your exam the 1st time, re-take the course at no additional charge until you do. It's the ultimate back-up plan that can save you \$\$\$.
10. **Complete Course Packages** – Includes Study Guides, Practice Exams, Books and Materials, Exam Fees and Provider Fees if applicable (Packages vary by course).
11. **Real World Business Experience** – Our instructors have audited and weatherized over 1000 homes, and draw upon their practical experience to train you for success in business.
12. **Multiple Certifications at Once** – Many of our courses will prepare you for multiple certifications at the same time.
13. **Post-Training Support** – Get access to energy audit software, innovative marketing strategies and a turn-key business solution.
14. **Competitive Prices** – Greater value at a consistently low price.

CORPORATE & CUSTOM TRAINING

Green Training USA provides training for educational institutions and corporations of all sizes. We can deliver any of our certification training courses, or develop custom training curricula to meet your specific needs. Either way, we'll deliver a turn-key solution designed specifically for adult learners using best practices to keep them engaged and increase retention.

Our training can be delivered in-house to reduce employee travel expenses, online for convenient access anytime, or a blend of the two. We also offer hands-on field training to provide valuable first-hand experience in a real life setting.

We have the expertise required to develop and deliver a high-quality training program to fit your specific objectives, schedule, format and location.

Call us at 1-800-518-1877 to discuss your specific training needs.

BPI (BUILDING PERFORMANCE INSTITUTE)

<u>BPI Building Analyst</u> Includes RESNET HESP Curriculum	Learn how to perform a thorough building analysis including work scope recommendations. These credentials qualify your clients for a variety of incentive programs.	24 hours online & 1 day field training	Course Package: \$1,595 Online Only: \$425
<u>BPI Building Envelope</u>	Understand why the diagnostic process is so important. Learn about problems with the building shell, moisture, ice dams, mildew and drafts and how to mitigate them.	4 hours online & 1 day field training	Course Package: \$1,295 Online Only: \$399
<u>BPI Building Analyst & Envelope COMBO</u>	Provides all the training necessary to challenge BOTH the BPI Building Analyst (BA) Professional and the Building Envelope Specialist (ES) Exam. Includes RESNET HESP Curriculum.	28 hours online & 1 day field training	Course Package: \$2,495 Online Only: \$1295
<u>BPI Accredited Contractor</u> (Company Credential)	Must have a full-time employee (or principle) with BPI Building Analyst certification <u>plus</u> 1 other specialty designation. Meet this requirement with our Building Analyst and Envelope COMBO .	30 hours online & 1 day field training	Course Package: \$2,495 Online Only: \$1295
<u>BPI Advanced Weatherization Installer (RBE-WH-ALCI)</u>	Earn your BPI RBE-WH-ALCI certification (Residential Building Envelope – Whole House – Air Leakage Control Installer) to become a certified weatherization installer.	4 days onsite OR 24 hours online & 2 days onsite	\$2,600 OR \$2,250
<u>BPI Multifamily Building Analyst</u>	Prepares you to conduct energy audits and prepare work scope recommendations for multifamily residential buildings.	8 hours online & 1 day onsite	\$895
<u>BPI Retrofit Installer</u>	Provides all of the knowledge, skills and abilities required to perform the tasks required by an advanced level retrofit installer.	26 hours online & 2 days onsite	\$2,795
<u>BPI Quality Control Inspector</u>	Provides all of the knowledge, skills and abilities to perform the tasks required by a Quality Control Inspector.	26 hours online & 2 days onsite	\$2,345
<u>Continuing Education (CEUs)</u>	We offer a variety of courses that qualify for BPI Continuing Education Units (CEUs)	Various	Various

DOE (US DEPARTMENT OF ENERGY)

<u>DOE Weatherization Installer 1 & 2</u>	Designed in accordance with guidelines specified by the U.S. Department of Energy (DOE) Weatherization Assistance Program Installer Curricula.	24 hours in class, 8 hrs field training, 3 hrs demo videos	\$1,995
<u>DOE Weatherization Crew Chief</u>	Designed in accordance with U.S. Department of Energy (DOE) guidelines. Build on your working knowledge of weatherization installation to be capable of managing a Weatherization Crew.	12 hours in class, 8 hrs field training, 2 hrs demo videos	\$1,195
<u>Home Energy Score Assessor Training</u>	Be qualified by the DOE to conduct a walk-through examination of a home and provide the Home Energy Score and associated recommendations.	8 hours online	\$295
<u>Building Energy & Weatherization Basics</u>	Based on the DOE's standardized curriculum. Upon completion, you will be eligible to take the BPI Advanced Weatherization Installer Course and subsequent certification.	16 hours online	\$599

RESNET (RESIDENTIAL ENERGY SERVICES NETWORK)

<u>RESNET Home Energy Survey Professional (HESP)</u>	Conduct walk-through assessments of the general energy performance problems and make basic recommendations for improvements or further analysis.	16 hours online	\$799
<u>RESNET Home Energy Rater (HERS Rater)</u>	Learn how to perform energy ratings, provide homeowners and homebuilders with detailed analyses of energy consumption, and opportunities for energy conservation and cost savings.	28 hours online & 2 days in class	Course Package: \$1,649 Online Only: \$425
<u>RESNET HESP & EnergySmart Contractor COMBO</u>	Prepares you for the RESNET <i>EnergySmart</i> Contractor Exam and the RESNET HESP Certification Exam.	24 hours online	\$799
<u>RESNET EnergySmart Contractor</u> (Company Credential)	Work with certified auditors to complete energy-saving improvements in compliance with RESNET's work scope standards of practice.	8 hours online	\$75
<u>CEQ Provider Service for RESNET EnergySmart Contractors</u>	To be certified as a RESNET <i>EnergySmart</i> Contractor, you need to sign up with a CEQ (Contractor Education & Qualification) Provider, who oversees your education and provides quality assurance oversight.	N/A	\$150/ year
<u>HESP Provider Service</u>	To be certified as a RESNET Home Energy Survey Professional (HESP), you need to sign up with a HESP Provider, who provides quality assurance oversight and access to RESNET approved reporting software.	N/A	\$250/ year

LEED, IECC & ASHRAE

<u>LEED Green Associate</u>	Prepares you to pass the Green Building Certification Institute's (GBCI) LEED® Green Associate exam and the Green Advantage Environmental Certification Exam .	10 hours online	\$199
<u>IECC Code Inspector</u>	2009 International Energy Conservation Code (IECC) course prepares you for studying or implementing the IECC code. Many states now require IECC Code Certification.	12 hours online	\$375
<u>ASHRAE 62.2 Residential Ventilation Assessment</u>	This course is designed for Energy Auditors to assess existing ventilation systems and prepare work scopes.	5 modules online	\$249
<u>ASHRAE 62.2 Mechanical Ventilation Design & Installation</u>	This course is for Ventilation System Installers, QC Inspectors and Program Administrators who have already taken <i>ASHRAE 62.2 Residential Ventilation Assessment</i> .	5 modules online	\$249
<u>ASHRAE 62.2 COMBO – Assessment, Design & Installation</u>	For Ventilation System Installers, QC Inspectors, Program Administrators. Provides an in-depth understanding of ASHRAE 62.2 Standard and ventilation practices.	10 modules online	\$399

INFRARED (IR)

<u>EnergyScanIR*</u>	Includes the complete business solution, including how to market, sell & grow an infrared business.	2 days in-class & hands-on	\$1,500
<u>RoofScanIR*</u>	Intensive 3-day+ course and will prepare you to perform on-roof infrared surveys of flat and low-sloped roofing systems.	3+ days in-class & hands-on	\$2,495
<u>BlockWallScanIR*</u>	Use infrared scans to determine whether the grouted cells, bond beams, insulation, etc of a concrete wall are properly placed - WITHOUT opening the wall with hammer or drill.	1 day in-class & hands-on	\$750
<u>Moisture Map IR*</u>	Part 1 of MoistureFindIR Module Learn how to locate and identify moisture via thermal imaging and capacitance meters.	1.5 days in-class & hands-on	\$995
<u>Moisture LocatIR*</u>	Part 2 of MoistureFindIR Module Prepares you to be a Forensic Investigator. Learn how to perform an infrared survey of moisture and make detailed reports which can stand up to the rigors of litigation.	1.5 days in-class & hands-on	\$1,750
<u>Electric IR*</u>	Learn how to use infrared thermography to perform preventive maintenance inspections on electrical equipment.	3 days in-class & hands-on	\$1,995
<u>Equine IR*</u>	Taught by licensed veterinarians and seasoned specialists trained in equine thermography. Includes the complete business solution.	3 days in-class & hands-on	\$1,995

* 6-month membership in United Infrared INCLUDED (Reg. \$500/year). Membership is REQUIRED to take this course

SOLAR

<u>Intro to Solar Photovoltaics</u>	Learn the fundamentals and best practices of Solar PV. Includes exclusive bonus module: How to Sell Solar PV Systems.	10 modules online PLUS Bonus Module	\$835
<u>Solar Photovoltaic System Design & Installation Training</u>	ISPQ Accredited by IREC (Interstate Renewable Energy Council); NABCEP approved for 60 hours of continuing education contact hours; Approved for NABCEP Installer Certification and re-certification.	60 hours online	\$649
<u>Solar Heating System Design & Installation Training</u>	ISPQ Accredited by IREC (Interstate Renewable Energy Council); NABCEP Registered and recognized for 40 continuing education contact hours of training; Approved for NABCEP Installer Certification and re-certification.	40 hours online	\$595

COMMERCIAL

<u>Commercial Lighting Assessor Course</u>	Designed for newcomers to the lighting industry, this course provides basic product type and application training for small commercial and industrial lighting. Includes a distributorship with a US manufacturer of quality LED lighting products.	24 hours online	\$595
<u>Commercial Energy Auditor Training</u>	Complete Business Package Teaches you everything you need to know to start a commercial energy auditing business.	24 hours online	\$497
<u>BOMI – Building Energy Manager*</u>	Evaluate and optimize your current system, integrate new components, and communicate your needs to management. <i>Includes Commercial Lighting Assessor Course</i>	30 hours online	\$1,750
<u>BOMI – Air Handling, Water Treatment & Plumbing*</u>	Gain the skills and knowledge to perform common water tests, maintain air-conditioning systems, maintain water services, and inspect portable fire extinguishers.	30 hours online	\$1,750
<u>BOMI – Boilers, Heating Systems & Applied Math*</u>	How to operate and maintain steam, hot water, warm air, and radiant heating systems.	30 hours online	\$1,750
<u>BOMI – Electrical Systems & Illumination*</u>	Learn how to safely operate and maintain a building's electrical equipment.	30 hours online	\$1,750
<u>BOMI – Refrigeration Systems & Accessories*</u>	Learn the principles of refrigeration, performance characteristics of refrigeration components, how to establish maintenance processes and troubleshooting techniques.	30 hours online	\$1,750

* One of 5 courses required for BOMI's SMT Designation.

MOLD & RADON

<u>Mold Inspector (MICRO CMI)</u>	Begin a career as a mold inspector. Successfully complete exam and project to earn your MICRO CMI certification.	30-hours online	\$450
<u>Mold Remediation Specialist (MICRO CMRC)</u>	Begin a career as a mold remediator. Pass your exam and earn your MICRO CMRC certification.	30-hours online	\$450
<u>Radon Measurement Technician</u>	Prepares you to conduct radon and radon decay product measurements. Approved for both NEHA-NRPP and NRSB Certification.	Online audio & video training	\$325
<u>Radon Mitigation Technology</u>	This course provides training for installation of radon mitigation systems. Approved for NEHA-NRPP certification (NRSB pending).	Online & 2 days field training	\$475
<u>Radon Mitigation & Measurement COMBO</u>	All the training you need to become certified for both radon measurement and mitigation. Approved for NEHA-NRPP certification (NRSB pending).	Online & 2 days field training	\$695
<u>Radon: Train the Speaker</u>	Continuing Education. Approved by NEHA NRPP for 12 CE credit hours. Complete the course to get listed on the Radon Speakers Bureau on the NEHA-NRPP and CERTI Websites.	Online	\$255
<u>Basis For Promoting Radon Reduction in Your Community</u>	Continuing Education. Approved by NEHA NRPP for 16 CE credit hours. Delivered jointly by NEHA and US EPA.	Video & Online	\$275
<u>Conducting Radon Surveys in Schools & Large Buildings</u>	Continuing Education. Approved by NEHA NRPP for 16 CE credit hours.	Video & Online	\$295

OTHER COURSES

<u>Duct and Envelope Tightness (DET) Verification Training</u>	Blower door and duct blaster testing; Calculations for ACH50 and percent duct leakage; Tips for successfully completing the written and in-field DET Verifier certification exams.	1 day (8 hrs) in class	\$199
<u>The Business Case For LED Lighting</u>	Learn about the largely untapped market for LED lighting, which technology provides the greatest opportunity, which industries will benefit the most, and which manufacturers have the most reliable equipment.	1 hour online	FREE SEMINAR
