WHY CHOOSE US?

No Travel Time & Expense

No time away from your family or work, and no fighting traffic to get to class on time.

On-Demand Flexibility

Study when you want, where you want - even from your smart phone.

Learn at Your Own Speed

Go as fast or slow as you need, and review anything at any time.

Quality & Consistency

Our online instructors never have a bad day, never fumble over an explanation, and never cancel class.

Help When You Need It

If you have questions, an instructor is just a phone call or email away!

Education Built for Adults

Our courses use adult learning techniques to help you understand and retain the information.

Practice Exams

Practice exams help you know if you're ready for your certification exam. Retake as often as you like.

100% Success Guarantee

If you don't pass your certification exam, you can take the online course until you pass.

RESNET HERS RATER TRAINING

COURSE OVERVIEW

This training prepares you to perform energy ratings for programs such as Energy Star, LEED® for Homes, Energy Efficient New Home tax credits, and various regional programs. You will also gain the skills required to work with home builders and architects to design energy efficient homes, as well as provide detailed analyses and recommendations for energy conservation and cost savings. This course provides everything you need to succeed.

This Course is BPI Recognized for 21 CEU Credits

TOPICS COVERED

- ✓ An understanding of building science and home construction principles —how the house works as a system
- ✓ Principles of heat, air, and moisture transfer
- ✓ How to use state-of-the-art diagnostic equipment to diagnose air leakage, comfort and indoor air quality, (including setup and operation of blower door and duct leakage testing equipment and infrared camera diagnostics)
- ✓ Ability to produce a complete home energy analysis using Rem/Rate™ software
- ✓ How to certify an ENERGY STAR home
- ✓ An Understanding of the services and responsibilities of a HERS Rater and Provider
- ✓ HERS Rater Certification Process
- ✓ Ability to produce accurate and unbiased home energy ratings for new and existing homes
- ✓ How to create or expand your business leveraging home comfort, HERS and diagnostics procedures

COURSE FORMAT

Students complete an all-inclusive online training, following university format with clear course objectives, a quiz at the end of each module and a final end-of-course practice exam. We confirm that our students receive scores in the 90% range on these practice exams to ensure they are prepared for the classroom instruction, field training and RESNET certification exams. Students have phone and email access to instructors to answer their questions for the duration of the course.

**Minimum 6 students required*

TESTIMONIAL

"Green Training USA provided me with the knowledge and hands-on skills to start doing home energy audits immediately. The instructor was focused on the required training content and was also very responsive to questions from the participants. He was able to answer both practical and technical questions and blend them into the general discussion. The test preparation materials were very good and I had no problem passing the RESNET Level II Exam. Overall I am very happy with the course and the results."

- Steve Gorman, Mason-Dixon Home Inspection Services, Gettysburg, PA
