WHY CHOOSE US?

-  **No Travel Time & Expense**
No time away from your family or work, and no fighting traffic to get to class on time.
-  **On-Demand Flexibility**
Study when you want, where you want - even from your smart phone.
-  **Learn at Your Own Speed**
Go as fast or slow as you need, and review anything at any time.
-  **Quality & Consistency**
Our online instructors never have a bad day, never fumble over an explanation, and never cancel class.

-  **Help When You Need It**
If you have questions, an instructor is just a phone call or email away!
-  **Education Built for Adults**
Our courses use adult learning techniques to help you understand and retain the information.
-  **Practice Exams**
Practice exams help you know if you're ready for your certification exam. Retake as often as you like.
-  **100% Success Guarantee**
If you don't pass your certification exam, you can take the online course until you pass.

BPI AIR LEAKAGE CONTROL INSTALLER COURSE (ALCI CERTIFICATION)

COURSE OVERVIEW

In this course you'll learn specific methods to tighten the building envelope in order to reduce energy loss from air leakage and minimize pollutants and allergens caused by air migration. You will also learn how to improve thermal comfort and energy efficiency through the proper installation of dense-pack insulation materials.

After completing this course, students will be qualified to work as a professional air sealing technician and insulation installer. Graduates who successfully pass the practical exam will become certified as a BPI Air Leakage Control Installer (ALCI Certification - formerly RBE-WHALCI). This certification is a prerequisite to take the Weatherization Crew Chief training.

This course is based on the U.S. Department of Energy's standardized curriculum.

This Course is BPI Recognized for 12 CEU Credits

COURSE FORMAT

Students complete online training, following university format with clear course objectives, a quiz at the end of each module and a final end-of-course practice exam. We confirm that our students receive scores in the 90% range on these practice exams to ensure they are prepared for the field training and BPI practical certification exam. Applicable course options include 1.5 days of classroom instruction and 1.5 days of hands-on lab instruction, as well as the BPI certification exam. Students have phone and email access to instructors to answer their questions for the duration of the course.

DATE:

Start online training immediately upon registration. Learn at your own pace. Online course available 24x7 for 90 days. Dates for classroom and hands-on instruction, and BPI practical exam TBA (for applicable course options).

LOCATION:

Log in to the online course from anywhere you have internet access - even from your smart phone. Location for classroom and hands-on instruction, and BPI practical exam TBA (for applicable course options).

TESTIMONIAL

"I would definitely choose Green Training USA for my next course or any course that they offer. The people who run it are extremely friendly, knowledgeable, and professional, and make the learning process very simple. Everything is straight forward and organized. Based on my experience from the course that I'm taking, I would not even look elsewhere."

- Nick Neboshynsky, Improvement Zone, Annapolis, MD
