Students complete an all-inclusive online training, following university format with clear course objectives, a quiz at the end of each module and a final end-of-course practice exam. We confirm that our students receive scores in the 90% range on these practice exams to ensure they are prepared for the BPI certification field exam. Students have phone and email access to instructors to answer their questions for the duration of the course.

### DATE:

Start online training immediately upon registration. Learn at your own pace. Online course available 24x7 for 90 days. Schedule the field exam when you're ready (written exam not required).

### LOCATION:

Log in anywhere you have internet access - even from your smart phone. Exam at a location near you.

## **BPI IDL Certification Exam**

To earn your BPI IDL certification you must pass the BPI field exam with a score of 85% or higher. You will have 1.5 hours to complete the field exam, which is conducted by a Green Training USA proctor by appointment at your location. There is no written exam.

Once you are comfortable with the material and required tasks, simply call Green Training USA to schedule your field exam. **Candidates must provide their own blower door and duct testing equipment.**

## COURSE COST

\$799 per student. [Visit our course web page](#) for more details.

## TESTIMONIAL

*"I much prefer online training because of the convenience factor. If you're very, very busy the last thing you want to do is spend a half hour or 45 minutes driving to a class and then turn around and drive back after a full day of work. If you're training online, you can turn that drive time into study time and continue to be productive in your job."*
