-  **Help When You Need It**
If you have questions, an instructor is just a phone call or email away!
-  **Education Built for Adults**
Our courses use adult learning techniques to help you understand and retain the information.
-  **Practice Exams**
Practice exams help you know if you're ready for your certification exam. Retake as often as you like.
-  **100% Success Guarantee**
If you don't pass your certification exam, you can take the online course until you pass.

HEP QUALITY CONTROL INSPECTOR (QCI)

COURSE OVERVIEW

Since January 1, 2015, organizations using funding from the DOE to run a Weatherization Assistance Program are required to have a certified HEP Quality Control Inspector on staff to manage the process and verify compliance with work plans and standards.

This course provides all of the knowledge, skills and abilities you'll need to perform the tasks required by a HEP Quality Control Inspector (QCI) as outlined in the Job Task Analysis developed by the U.S. Department of Energy and the National Renewable Energy Laboratory (NREL). Specifically, you will be prepared to confidently conduct diagnostic audits and inspections to verify the compliance of retrofit work to work plans and standards, and develop reports specifying corrective actions.

Put yourself at the top of your field with this advanced certification. Boost your job security and job opportunities as more and more government and utility programs require verification by a HEP QCI.

The HEP QCI Certification Package (Option 2) is BPI Recognized for 14 CEU Credits

TOPICS COVERED

- ✓ Conducting quality checks
- ✓ Visual and sensory inspections
- ✓ Diagnostics inspections
- ✓ Worker professionalism
- ✓ Ensuring project compliance
- ✓ Proper maintenance of files and records

COURSE FORMAT

Students complete online training, following university format with clear course objectives, a quiz at the end of each module and a final end-of-course practice exam. We confirm that our students receive scores in the 90% range on these practice exams to ensure they are prepared for the hands-on field training and HEP certification exams (for the certification package). Students have phone and email access to instructors to answer their questions for the duration of the course.

HEP QUALITY CONTROL INSPECTOR (QCI)

TESTIMONIAL

"I would definitely choose Green Training USA for my next course or any course that they offer. The people who run it are extremely friendly, knowledgeable, and professional, and make the learning process very simple. Everything is straight forward and organized. Based on my experience from the course that I'm taking, I would not even look elsewhere."

- Nick Neboshynsky, Improvement Zone, Annapolis, MD
