# About Green Training USA

**Green Training USA helps you build a career that matters—one that's good for the planet and your future.**

For nearly two decades, we've been leading the way in accessible, expert-driven training for today's most in-demand fields:

**energy efficiency, indoor air quality, building performance, and renewable technologies.**

We helped shape how online training works in this industry.

With the most extensive catalog of online certification and CEU courses available, we continue to set the standard for quality, convenience, and results.

---

## Why Professionals Choose Us

### Proven. Respected. Trusted.

With nearly 20 years in the field, our programs are built on experience, results, and a deep understanding of what it takes to succeed in the real world.

### Learn from Real Experts

Our instructors aren't just educators – they're industry professionals who've spent years in the field. They teach with clarity, insight, and a commitment to your success.

### Flexible Formats for Real Life

Learn online, in the classroom, or on the job site.

Whether you're juggling work, family, or a career change, our blended training options let you learn your way.

# From Beginner to Advanced

## Choose from:

- ✓ Introductory courses
- ✓ Specialized certifications
- ✓ Continuing education
- ✓ Department of Labor-registered apprenticeships

Wherever you are in your career, we have a path forward.

## High Pass Rates—Guaranteed

Our students regularly earn **some of the highest first-time pass rates** in the industry.

And with our **100% Success Guarantee**, you can retake the course at no extra cost until you pass.

## Aligned with Top Standards

Our training meets or exceeds the standards of respected national and international organizations, including:

**BPI, RESNET, LEED, NATE, NRPP, IICRC, ASHI, and more.**

## A Proven Path to a Greener Future

Thousands of professionals—from newcomers and career changers to licensed contractors and veterans—have trusted Green Training USA to help launch, grow, and elevate their careers.

**We're proud to lead this industry.**

We're even prouder to help people like you build a future you believe in.

# Why Choose Green Training USA

## Let's Talk About Your Goals

Call us at **1-800-518-1877** to find the right training path for your background and ambitions. Whether you're building on experience or starting from scratch, we're here to help.

---

## Flexible. Practical. Built for Real Life.

**Designed to Fit Your Life** – Whether you're balancing work, family, or a major life transition, our blended learning model gives you the freedom to train on your schedule—anytime, anywhere.

**Self-Paced + Hands-On Options** – Access multimedia courses on-demand, and add hands-on field training when you're ready to take your skills into the real world.

**Immediate Access. No Delays.** – Get started the moment you enroll. No waiting for a semester to begin.

**Instructor Support, On Your Terms** – Reach out to real professionals for guidance by phone or email—whenever you need it.

**Proven First-Time Pass Rates** – Most students pass their certification exams on the first try. Our content is built for success.

**Success Guarantee** – Didn't pass? Retake the course at no extra cost. We'll support you until you succeed.

---

# What Is Multimedia Training?

## **More Than Online Learning**

Our courses combine the flexibility of on-demand learning with the clarity of a live instructor. These aren't dry slide decks—they're taught by pros who break down the material in a relatable, visual, and interactive format.

### **Learn at your own pace—with the feel of a real classroom.**

Rewind, pause, take notes, and absorb the content in the way that works best for you.

## **Multimedia = Flexibility + Real Instruction**

---

## Who We Serve

### **Expanding Your Portfolio?**

Add certifications to stand out in energy efficiency, home performance, HVAC, indoor air quality, and more.

Stay competitive in a shifting industry and offer clients more value.

Earn multiple credentials through our bundled training programs.

### **Veterans: A New Mission Starts Here**

Transitioning to civilian life can be a challenge—but you don't have to go it alone. At Green Training USA, we offer structured, mission-driven training that turns your discipline and work ethic into a meaningful career in energy efficiency and building performance.

**Real Career Paths** – Whether you're looking for a hands-on job, a leadership track, or your own business, our training opens doors in fast-growing clean energy fields.

**Train with Purpose** – Many of our instructors and support staff are veterans too. We understand the unique strengths you bring—and the support you need to thrive.

**Registered Apprenticeships** – Get paid while you train with Department of Labor-approved programs that are nationally recognized.

**Flexible, Structured Learning** – Learn at your own pace while maintaining the structure and goals you're used to.

*Ask us how to apply your VA benefits or begin the transition process—we'll help you get started.*

### **Starting from Scratch?**

**No experience? No problem.**

We'll guide you from the ground up with easy-to-follow training, expert support, and hands-on options to get you field-ready.

Explore growing industries that offer long-term opportunity and purpose-driven work.

## **Everything You Need—All in One Place**

**Study Materials Included** – Textbooks, guides, practice exams, toolkits (varies by course).

**Exam Fees Often Covered** – Many programs include certification and provider fees.

**Multiple Certs, One Program** – Save time and money by earning more than one credential at once.

**Meets CEU & State Licensing Standards** – Courses often qualify for licensing and continuing education. We'll help you navigate your state's rules.

---

## Career Support That Stays with You

**Learn from Real-World Experts** – Instructors who've worked in the field, not just read about it.

**Business & Career Tools** – Access audit software, marketing strategies, and growth resources long after your course ends.

**Affordable & Accessible** – High-quality training with competitive pricing and flexible payment options.

---

## Ready to Get Started?

Call us at 1-800-518-1877 or visit [GreenTrainingUSA.com](https://www.GreenTrainingUSA.com) to explore your training path today.

*Flexible learning. Proven results. Built for your real life.*

# BPI (Building Performance Institute)

## BPI Building Science Principles

 **12 hours**     **\$249**     ***Includes Exam***

Provides a solid foundation in building science concepts, including heat transfer, moisture movement, air flow, and thermal dynamics. Ideal for those looking to understand the science behind energy efficiency and healthy homes.

 **Approved by: BPI, ASHI, AIBD, IICRC, NARI, CREIA, RIA**

---

## Building Analyst Technician (BA-T)

 **24 hours online**     **\*\$675 (Course) | \$1,695 (Course + Exams)\***

Covers combustion testing, blower door diagnostics, HVAC system evaluation, and health and safety considerations. Prepares you for field testing and energy audit responsibilities.

 **Approved by: BPI**

 ***Required for: Building Analyst Professional***

---

## Building Analyst Professional (BA-P)

 **24 hours online**     **\*\$295 (Course) | \$475 (Course + Exams)\***

Advanced-level certification focused on diagnostic interpretation, improvement planning, work scopes, and cost-benefit analysis.

 **Approved by: BPI**

 ***Prerequisite: Building Analyst Technician (BA-T)***

---

## Healthy Housing Principles (HHP)

 **Self-paced online**  **\$ \$99**

Introduces the eight key principles of healthy housing. Covers ventilation, moisture control, indoor air quality, and occupant safety.

 **Approved by: BPI, NATE, RESNET PD**

---

## Infiltration & Duct Leakage (IDL)

 **6 hours online**  **\$ \$899 (Course + Exam)**

Teaches how to properly conduct blower door and duct leakage tests per IECC building code requirements.

 **Approved by: BPI, AIBD, CREIA, PHIUS, IICRC, NARI, RIA**

---

## Multifamily Building Analyst

 **6 hours online**  **\*\$450 (Course) | \$995 (Course + Exams)\***

Designed to prepare energy professionals to perform audits and recommend improvements in multifamily residential buildings.

 **Approved by: BPI, AIBD, ASHI, PHIUS, IICRC, NARI**

---

## Air Leakage Control Installer

 **24 hours online**  **\*\$450 (Course) | \$995 (Course + Exams)\***

Covers techniques and materials for sealing building envelopes, controlling pollutants, and improving energy efficiency.

 **Approved by: BPI, AIBD, CREIA, PHIUS, IICRC, NARI**

## Total Building Performance Certificate

 **Self-paced online**  **\$99**

Introduces whole-building performance analysis, decarbonization, energy modeling, and electrification strategies.

 **Approved by: BPI, RESNET PD, NATE**

---

## HEP Energy Auditor Training

 **32 hours online**  **\$895**

Meets the U.S. DOE Weatherization Assistance Program standard for energy auditor training. Focuses on residential audit skills, diagnostics, and reporting.

 **Approved by: BPI**

 ***In-person exam required for certification***

---

## HEP Quality Control Inspector (QCI)

 **26 hours online**  **\*\$625 (Course) | \$825 (Course + Exams)\***

Prepares professionals to verify weatherization project quality and compliance with federal standards.

 **Approved by: BPI**

---

## BPI Exam Prep & Testing Options

 **\$75-\$525**

Includes video exam prep, written test access, and field exam options for BPI certifications. Equipment access may be required for field exams.

 **Approved by: BPI**

 ***Online and proctored; field components may vary***

# Residential Energy Services Network (RESNET) Certifications

## HERS Rater Certification

 **32 hours online**      **\*\$595 (Course) | \$1,695 (Course + Exams)\***

Qualifies professionals to conduct certified Home Energy Ratings. Covers building envelope, HVAC performance, diagnostic testing, and energy modeling. Includes RESNET-specified simulation exams.

 **Approved by: BPI, ASHI, NATE, CREA, IICRC, Home Inspector**

---

## HERS Associate

 **Self-paced online**      **\*\$99\***

Designed for those not conducting ratings but needing a strong understanding of HERS principles. Ideal for builders, appraisers, code officials, suppliers, and support staff.

 **Approved by: BPI, AIBD, NARI, ASHI, IICRC, Home Inspector**

---

## ENERGY STAR Version 3 Exam Training

 **Self-paced online**      **\*\$275 (Course + Exam)\***

Prepares students for certification to perform ENERGY STAR v3 inspections, including understanding requirements for new homes and quality installations.

 **Approved by: BPI**

---

## Home Energy Survey Professional (HESP)

 **16 hours online**      **\*\$99\***

Teaches professionals how to perform walk-through energy surveys. Includes visual inspections and homeowner education techniques.

 **Approved by: BPI, AIBD, ASHI, IICRC, NARI, RIA**

### EnergySmart Contractor

 **8 hours online**      **\*\$125\***

Focuses on integrating energy upgrades into existing work scopes. Designed to support contractors offering energy-efficient improvements.

 **Approved by: BPI**

---

### HERS H2O & WaterSense 2.0 Training

 **26 hours online**      **\*\$249\***

Focuses on water efficiency in residential buildings, including how to rate and certify homes using RESNET's H2O system and EPA WaterSense guidelines

 **Approved by: BPI, RESNET PD, NATE**

---

### Practical Simulation Exam Access

 **1-year online simulator access**      **\*\$325 (Training + Exam)\***

Practice key tasks from the HERS Rater simulation exam in an interactive 3D environment. Includes test scenarios for inspection, evaluation, and diagnostic simulation.

 **Platform: Online Simulation**

---

### ResGaz Simulation Training & Exam

 **1-year online simulator access**      **\*\$99\***

Covers combustion appliance zone (CAZ) testing through a virtual platform. Meets RESNET practical testing requirements.

 **Approved by: BPI**

## HERS Written Exam (Retake Option)

 **Scheduled online or in-person**      **\$ \*\$300\***

Official RESNET-written exam retake. Contact your exam proctor or training provider for scheduling.

 **Administered through RESNET**

---

## **Radon, Mold & Restoration Certifications**

### Radon Measurement Professional

 **Self-paced online**      **\$ \*\$99\***

Covers radon sources, health effects, test protocols, QA/QC, and equipment usage. Fulfills NRPP certification requirements for radon measurement professionals.

 **Approved by: BPI, NRPP, NARI, AIBD, ASHI, CREIA, PHIUS, IICRC, NAHB, RIA**

---

### Radon Mitigation Specialist

 **Online audio + mentoring session**      **\$ \*\$475\***

Prepares certified radon measurement professionals to design and install mitigation systems. Includes direct mentoring and exam prep.

 **Prerequisite: Radon Measurement Certification**

---

### Radon Multifamily Measurement (MAMF-2017)

 **Self-paced online**      **\$ \*\$145\***

Covers the updated ANSI-AARST MAMF-2017 radon testing standard for multifamily buildings. Emphasizes test planning, QA/QC, and documentation.

 **Approved by: NRPP and industry-specific CE bodies**

## A History of Radon

 **8 hours online**       **\*\$89\***

Educational overview of radon's discovery, public health response, and regulatory evolution. Useful for continuing education and broader context.

 **Approved by: BPI, NRPP, NATE, IICRC, AIBD, RIA, RESNET PD**

---

## Mold Remediation Technician

 **16 hours online**       **\*\$375\***

Prepares students for the CRMR (Certified Residential Mold Remediator) exam. Includes mold identification, health risks, containment, PPE, and remediation protocols.

 **Approved by: BPI, IICRC, ASHI, NATE, RESNET PD**

---

## Mold 101

 **4 hours online**       **\*\$179\***

Introductory course covering basic mold identification, moisture issues, indoor air quality, and remediation guidelines.

 **Approved by: AIBD, BPI, ASHI, IICRC, NATE, Home Inspector, Real Estate**

---

## Water Damage Restoration Technician

 **18 hours online**       **\*\$295\***

Covers mitigation, containment, drying techniques, and post-restoration evaluation. Based on IICRC S500 standards.

 **Approved by: AIBD, BPI, ASHI, IICRC, NATE, RESNET PD, Real Estate**

# LEED & Green Building Certifications

## LEED Green Associate - Intro Course

 **12 hours online**      **\$ \*\$99\***

Introduces the LEED rating system and fundamental concepts of green building, sustainable site development, energy performance, and water efficiency. Prepares learners for the LEED Green Associate exam.

 **Approved by: BPI, ASHI, AIBD, NATE, IICRC, RESNET PD, RIA, NARI, Home Inspector, Residential Contractor**

 ***Recommended before pursuing LEED AP BD+C***

---

## LEED AP BD+C Exam Prep

 **12 hours online**      **\$ \*\$475\***

Focuses on advanced LEED concepts for Building Design and Construction. Topics include materials and resources, indoor environmental quality, and innovation in design.

 **Approved by: BPI, ASHI, AIBD, NATE, IICRC, RESNET PD, RIA, NARI, Residential Contractor**

---

## Insulation Installer Certifications

### Entry-Level Insulation Installer

 **12 hours online**      **\$ \*\$200\***

Teaches basics of insulation materials, safety, installation practices, and air sealing. Ideal for new installers and field support staff.

 **Approved by: BPI, ASHI, AIBD, NARI, IICRC, RIA, Residential Contractor**

## Gold-Level Insulation Professional

 **12 hours online**      **\*\$445\***

Builds on the basics with advanced installation techniques, quality assurance inspections, and RESNET insulation grading standards.

 **Approved by: BPI, ASHI, AIBD, NARI, IICRC, RIA, Residential Contractor**

---

## Platinum-Level Insulation Mastery

 **12 hours online**      **\*\$375\***

Covers 2012 IECC code, diagnostic testing, and HPIP Platinum certification exam prep. Designed for lead installers and insulation crew managers.

 **Approved by: BPI, ASHI, AIBD, NARI, IICRC, RIA, Residential Contractor**

---

## Intro to Solar Photovoltaics

 **Self-paced online**      **\*\$375\***

Provides an overview of PV system components, how solar works, installation basics, and safety protocols. Suitable for newcomers and those supporting solar installation teams.

 **Approved by: BPI, ASHI, AIBD, CREIA, PHIUS, NARI, RIA, Residential Contractor, RESNET PD**

---

## 58-Hour NABCEP Advanced PV Certification Series

 **58 hours online**      **\*\$1,675\***

Comprehensive training package including the Solar PV Boot Camp, NABCEP PV Associate Prep, and 40-Hour Advanced Installer Training. Meets education requirements for the NABCEP PV Installation Professional Exam.

 **Approved by: BPI, ASHI**

## 40-Hour NABCEP Advanced Installer Course

 **40 hours online**    **\$ \*\$995\***

Focused on system design, NEC code updates, battery backup, and troubleshooting. Intended for those pursuing advanced PV installation credentials.

 **Approved by: BPI, ASHI**

 *Eligible for NABCEP continuing education*

---

## 30-Hour NABCEP Certification Training

 **30 hours online**    **\$ \*\$795\***

Designed around NABCEP's PV certification standards. Covers job task analysis, key calculations, safety, and design fundamentals. Includes practice exam.

 **Approved by: BPI, ASHI**

---

## Solar PV Boot Camp + NABCEP PV Associate Prep

 **Self-paced online**    **\$ \*\$795\***

Covers basic PV concepts and prepares students for the NABCEP PV Associate Exam. Includes practice exams and exam registration.

 **Approved by: BPI, ASHI**

 *Exam may be taken at Scantron test centers or online with a live proctor*

---

# Real Estate & HVAC Certifications

## Understanding Energy Efficiency in Real Estate

 **4 hours online**      **\*\$99\***

Designed for real estate professionals to understand how home energy performance impacts valuation, code compliance, and resale.

 **Approved by: BPI, ASHI, AIBD, IICRC, CREIA, NARI, RIA, Residential Contractor, Real Estate**

---

## Home Energy Score Assessor Training

 **8 hours online**      **\*\$125\***

Prepares professionals to generate DOE Home Energy Scores using inspection protocols and scoring software. Includes access to live support and certification steps.

 **Approved by: BPI, ASHI, IICRC, AIBD, NARI, RIA**

---

## Jobsite Safety for Construction & Weatherization

 **4 hours online**      **\*\$125\***

Covers personal safety, hazard awareness, OSHA basics, and jobsite best practices. Designed for new workers and refresher training.

 **Approved by: BPI, ASHI, CREIA, IICRC, AIBD, NATE, NARI, NAHB, RIA**

---

## OSHA Confined Spaces - Attics & Crawlspace

 **Self-paced online**      **\*\$149\***

Focused on OSHA Subpart AA requirements. Teaches risk reduction, ventilation procedures, and documentation for tight workspaces.

 **Approved by: BPI, ASHI, CREIA, IICRC, AIBD, NATE, NARI, RIA**

## HVAC Distribution Systems

 **3 hours online**      **\*\$55\***

Covers common residential distribution types—forced air, hydronic, radiant, and mini-splits. Emphasizes performance and balancing.

 **Approved by: BPI**

---

## Introduction to Heat Pumps

 **Self-paced online**      **\*\$160\***

Teaches how heat pump systems operate, where they're most effective, and how they compare to traditional HVAC systems.

 **Approved by: BPI, NATE**

---

## Utility Bill Analysis & Base Load Measures

 **2 hours online**      **\*\$75\***

Provides tools to interpret utility bills, identify usage trends, and recommend upgrades based on base load calculations.

 **Approved by: BPI, ASHI, NATE**

---

## ICC Residential Energy Inspector (2012 Code)

 **4 hours online**      **\*\$199\***

Prepares individuals to inspect residential properties for 2012 IECC energy code compliance. Includes code references and field-ready guidance.

 **Approved by: BPI, ASHI, AIBD, IICRC, NARI, RIA, Residential Contractor**

---

# Specialty & Supplemental Certifications

## Building Science Trio (3-in-1 Bundle)

 **20 hours online**     **\*\$225\***

Includes Building Science Principles, RESNET Home Energy Survey Pro, and EnergySmart Contractor courses. Ideal for professionals needing CEUs across multiple certifying bodies.

 **Approved by: BPI (28 CEUs)**

---

## Advanced Building Assessment & Retrofit Strategies

 **Self-paced online**     **\*\$225\***

Covers utility bill analysis, thermal envelope upgrades, HVAC improvements, and cost-effective retrofit approaches.

 **Approved by: BPI**

---

## Duct & Envelope Tightness (DET) Verification

 **Self-paced online**     **\*\$125\***

Provides the knowledge needed to verify residential building performance in accordance with IECC codes.

 **Approved by: BPI**

---

## BPI Building Analyst (Full Training Option)

 **Self-paced online**     **\*\$149\***

Comprehensive course covering diagnostics, audits, and retrofit planning. Intended for those pursuing or renewing full Building Analyst certification.

 **Approved by: BPI, AIBD, IICRC, NARI, RIA, Home Inspector**

---

### BPI Envelope Professional

 **Self-paced online**     **\*\$225\***

Teaches moisture management, shell performance diagnostics, and air sealing measures for building envelope professionals.

 **Approved by: BPI and related trades**

---

### Commercial Energy Auditing Manager

 **12 hours online**     **\*\$495\***

For professionals focused on commercial property assessments. Includes cost savings strategies, usage analysis, and report preparation.

 **Approved by: BPI, IICRC, NATE, RESNET PD**

---

### Residential Cooling Measures

 **2 hours online**     **\*\$55\***

Outlines options to improve home cooling efficiency, including maintenance practices and low-cost upgrades.

 **Approved by: BPI**

---

### Building Shell Retrofit Strategies

 **2 hours online**     **\*\$75\***

Introduces best practices for envelope upgrades including air sealing, insulation types, and sequencing.

 **Approved by: BPI**

---

### Building Assessment Techniques

 **2 hours online**     **\*\$55\***

Focused on field assessments and how to identify energy, safety, and comfort issues using standardized methods.

 **Approved by: BPI**

## Radon Testing: Device Placement Protocols

**4 hours online**

**\$ \*\$75\***

Covers radon testing procedures, correct device placement, and proper reporting for residential inspections.

**Approved by: BPI, NRPP**

---

## WELL AP Exam Prep

**12 hours online**

**\$ \*\$325\***

Covers wellness-related building practices and prepares professionals for the WELL AP exam. Includes test prep materials and practice questions.

**Approved by: BPI, NATE, IICRC, RESNET PD, AIBD, ASHI, RIA**

---

## SPF Assistant Exam Prep (Spray Foam)

**8 hours online**

**\$ \*\$250 (Member) | \$350 (Non-Member)\***

Teaches jobsite safety, SPF equipment handling, and installation basics. Prepares learners for SPFA certification.

**Approved by: BPI, NATE, IICRC, PHIUS, RIA, AIBD, ASHI**

---

## **Continuing Education Packages**

### **Flexible, Pre-Approved CE Options:**

**Choose from CEU, CEH, PD, and CEC credit types**

**Package sizes range from 2-30 hours**

**Fully online and self-paced**

**Materials include video lessons, quizzes, and downloadable resources**

**Great for license renewal, certification maintenance, or onboarding new staff**

## Popular Packages by Organization

Certifying Body	Type	Hours	Starting At
BPI	CEU	2-30 hrs	\$99
NATE	CEH	4-16 hrs	\$89
NRPP	CE	4-16 hrs	\$55
RESNET	PD	4-18 hrs	\$99
ASHI	CE	8-20 hrs	\$59
CREIA / OREA	CE	4-21 hrs	\$89
NAHB / NARI / RIA etc.	CEU/CEH	4-48 hrs	\$89

### Home Inspector Packages Available For:

Alaska, California (CREIA), Connecticut, Delaware, Maryland, Mississippi, New Hampshire, Oregon (OREA), Virginia, and West Virginia

**4-16 hours available**

**Starting at \$59**

### FREE Basic Math for Construction

**Perfect for beginners and great as a refresher – this class covers essential formulas and math skills used in the field.**

**Request it FREE with any course purchase!**
